

How to download an invoice

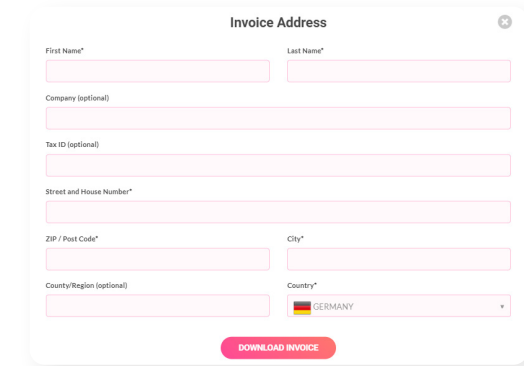

Invoice of product

Open MyPostcard once via your browser and log in with your normal MyPostcard account.

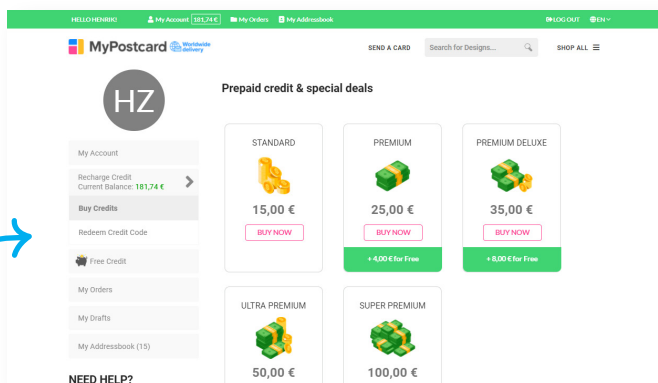

Now you can click on the desired product under „My Orders“ and click on „Download Invoice“.

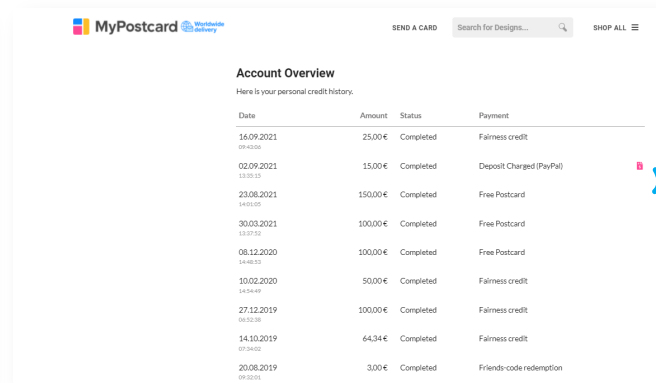

Then you only have to enter the billing address and you're done.

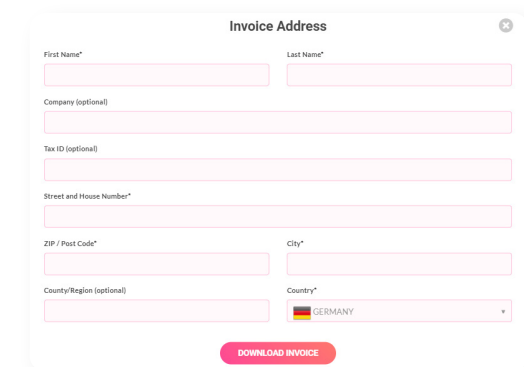

Invoice of credit

If you click on „Recharge Credit“ in the list on the left, you will see an „Account overview“ under the credits.

Next to each amount is a small note. There you can click on.

You will be asked again for your billing address.
